I wonder your need overlaps with Angeles' deep water DDT brief, attached. Maybe something in there helps you and John?

Hi Andrew –

Indeed it did. 😊 I was very unsure about how to frame our key messages or talking points, having been given no direction on that, and not really sure the intent of the briefing. I know it's for the budget hearings, but I'm not sure how Montrose is relevant to that, since it is PRP lead, mostly. I was going to review that with John this morning.

Thanks!

Regards,

Kelly Manheimer

Kelly,

The draft you sent me had some open topics, so my comments may be incomplete. Regardless, these are very modest. Please let me know if there is additional language you'd like me to review or whether you want me to help draft the talking points portion.
